ABOUT ME

For me, fashion is a canvas to express stories of nature. Sea shells inspired my journey because they are nature's jewelry - delicate yet strong, simple yet beautiful. In this portfolio, I have translated their forms, colors, and textures into fashion. Shades of ivory, pearl, and earthy tones reflect the ocean's calmness, while the silhouettes echo the strength and uniqueness of shells.

GRATITUDE NOTE

My special thanks go to my husband for his endless love and support. I am also grateful to my family and friends for always being there for me. A heartfelt thank you to Shabir Sir for his valuable guidance, and to my dear models Nidhi and Mohini, for beautifully bringing my designs to life.
